

**Table One
Goals and Objectives to Increase Research and Scholarly Activities**

Goal	Current Levels and Objectives	Percentage 5-Yr Increase
Goal 1 – Increase the level of active exchanges, cooperative agreements, certificate and joint programs with international partners.		
To be measured by	<ul style="list-style-type: none"> - Increase the level of 106 active exchange agreements. - Increase the level of 112 cooperative agreements. - Increase the level of 10 certificate programs with an international focus. - Increase the level of 13 certificate programs targeting an international audience. - Increase the level of 14 joint degree programs with international partners. 	<p align="center">10%</p> <p align="center">25%</p> <p align="center">50%</p> <p align="center">50%</p> <p align="center">25%</p>
Goal 2 - Increase the level of grants, contracts, and other funding that contains international components through both internal and external venues.		
To be measured by	<ul style="list-style-type: none"> - Increase the level of 400 grants (contracts) with international components. - Increase the level of 113 internally funded international grants. - Increase the level of 384 externally funded international grants. - Increase the level of 112 foreign funded grants. - Increase the \$37,236,346 total amounts of grants, contracts, and other funding. 	<p align="center">25%</p> <p align="center">25%</p> <p align="center">20%</p> <p align="center">10%</p> <p align="center">20%</p>
Goal 3 – Increase internationalization through faculty participation in study and research abroad, publication in refereed international journals, and demonstrated global expertise.		
To be measured by	<ul style="list-style-type: none"> - Increase the level of 1338 faculty members who have published in a refereed international journal. - Increase the level of 200 faculty members who have expertise in a foreign country and are entered in the UFIC Country Specialist Database. - Increase the level of 489 faculty members who have traveled internationally to study or conduct research during the academic year. - Increase the level of 239 faculty members participating in media interview with an international focus. 	<p align="center">20%</p> <p align="center">50%</p> <p align="center">20%</p> <p align="center">25%</p>
Goal 4 – Increase internationalization through faculty presentations of scientific papers, workshops, or other scholarly endeavors, and through service on international editorial boards.		
To be measured by	<ul style="list-style-type: none"> - Increase the level of 357 scholars with international expertise. - Increase the level of 1266 faculty members who have presented scientific papers, workshops, or other scholarly presentation in another country. - Increase the level of 834 faculty members who have attended an international conference during the academic year. - Increase the level of 425 faculty members serving on international editorial boards. 	<p align="center">50%</p> <p align="center">20%</p> <p align="center">20%</p> <p align="center">10%</p>
Goal 5 – Increase internationalization through faculty participation in awarded exchanges that that engage in teaching and/or research, scholarly activities, mentoring, and appointment to positions in another country.		
To be measured by	<ul style="list-style-type: none"> - Increase the level of 706 faculty members who teach, hold visiting professorships, or collaborate in research with universities in other countries. - Increase the level of 158 faculty members having held or holding Fulbright, or similar distinguished awards for significant teaching and/or research in another country. - Increase the level of 204 faculty members who have scientific, scholarly, or other research positions in other countries. - Increase the level of 228 faculty members serving as mentors or advisors for international exchange students. - Increase the level of 160 faculty members serving on graduate committees in other countries. - Increase dramatically the level of infrastructure devoted to internationalization through the development of communication, housing, and financial (short-term) assistance to promote collaboration with other countries. 	<p align="center">20%</p> <p align="center">10%</p> <p align="center">15%</p> <p align="center">15%</p> <p align="center">15%</p> <p align="center">1000%</p>
